### *Hair Treatments*

#### *Basic*

<i>Smoothening/Keratin(S/M/L)</i>	<i>3000/4000/5000</i>
<i>Re Growth Hair Straightening</i>	<i>3500</i>

### *Advance Repairing Treatments*

<i>Botox (S/M/L)</i>	<i>3500/5000/6000</i>
----------------------	-----------------------

*Hair Botox is a deep conditioning treatment for your hair that coats damaged hair cuticles with a filler ingredient, like keratin, that effectively fills in damaged or thin spots on each strand.*

<i>Cysteine(S/M/L)</i>	<i>4000/6000/8000</i>
------------------------	-----------------------

*Cysteine is a form of hair protein that works with existing proteins in hair to soften curls & waves. Cysteine treatment is a hair treatment that works on these existing proteins found in the hair shaft. The process involves shampooing, application of the cysteine concentrate and heat styling.*

<i>NanoPlastia(S/M/L)</i>	<i>6000/8000/10000</i>
---------------------------	------------------------

*Nanosmooth is an innovative hair restoration process and a highly effective method of straightening that provides a super healthy, glossy appearance. Unlike other hair straightening hair products, the base of nanosmooth is amino acids and collagen (100% Hazardous Chemical free).*

*Nanosmooth treatment contains natural ingredients that restore damaged hair strands, smoothing them and eliminating curls, leaving them smooth and shiny for 40-60 washes. It is an alternative to Keratin Smoothing Treatment (Kera smooth) which usually contains formaldehyde (A very hazardous chemical).*

### ***Hair Styling***

*Products use may be different for skin type and tone*

*Exclusive:*

*For all Facial treatments peel of mask is complimentary.*

*For Advanced treatments, we are using advanced machines to penetrate the maximum benefits of product goodness into the skin.*

*For all signature treatments extra care with advance machines and LED light therapy helps treat a variety of skin concerns and conditions, including:*

- *Eczema.*
- *Hair loss.*
- *Mild to moderate acne.*
- *Psoriasis.*
- *Rough, scaly, precancerous spots on the skin (actinic keratosis).*
- *Rosacea.*
- *Sun damage.*
- *Wounds.*

*Note:*

*Don't wash your face right away after a facial. Give your skin 24 hours to absorb all the goodness from the products. Washing it with your regular cleanser straight away will strip you out of all the product goodness. Therapists who suggest take-home products do this because it helps build upon your facial results.*
